Summary

Highly organized and detail-oriented worker, with a drive to exceed expectations. Ability to analyze data, develop strategies, and provide solutions to complex problems. Seeking to leverage skills and knowledge to contribute to team success.

Education

R.V College Of Engineering — Bachelor of Engineering • 9.33 CGPA
Computer Science and Engineering — Bengaluru, India • Sept 2024 - Aug 2028

Experience

Team Chimera — Bengaluru, India
CS Lead — Dec, 2024 - Present

- Developed and optimized the team's website backend, integrated Sanity.io CMS, and managed production hosting, deployment, and DNS infrastructure. (**www.teamchimera.in**)
- Developing the complete BMS firmware for an APARD32690 (MAX32690 + ADBMS6830) based system using FreeRTOS, isoSPI, ADC, and CAN 2.0A.
- Leading the firmware development across battery-monitoring communication, real-time embedded software, and vehicle CAN interfacing.

Projects

Leision Lens — Apr 2026 - June 2026
PyTorch, EfficientNet-B4, Flask, React, Grad-CAM, FPN, NumPy, Pandas, Kaggle

Collaborated in a team to develop Leison Lens, an AI-powered diabetic retinopathy screening platform, contributing to Flask application integration and cross-dataset verification, with EfficientNet-B4, Grad-CAM, and lesion segmentation.

Dark Web Leak Detection System — Dec, 2025 - May, 2026
Python, Flask, asyncio, aiohttp, Tor, Docker, LLMs

Collaborated an AI-powered dark web monitoring pipeline using asynchronous Tor-based crawling, LLM-driven threat classification, regex-based IOC extraction, automated file analysis, and a Flask dashboard; containerized the system with Docker and implemented rate-limit handling, concurrent task management, and automated monitoring.

NFC Smart Lock — July, 2026 - Present
ESP-IDF, Flutter, Cryptography, ISO 14443-A, ISO-DEP

Developed an end-to-end encrypted authentication system for an NFC smart lock, implementing mutual authentication and secure session establishment using Ed25519, X25519, AES-256, and HKDF, with an ESP-IDF firmware and Flutter client.

Skills

- **C / C++**
- **ESP IDF**
- **Flutter / Dart**
- **Python**
- **Javascript**
- **MERN Stack (MongoDB, Express, React, Node)**

Certifications

Python Programming — Oct 2025
Harvard University

Full Stack Web Developer — Feb 2026
App Brewery (Udemy)

Data Science For Engineers — March, 2026
IIT Madras (NPTEL)

Awards

Road to Poneglyph — 25 Nov, 2025
THWS Germany, Coding Club RVCE and Accelerate Club RVCE
Secured 3rd place in a Germany-collaborative international CTF event, competing against global student teams.
